

REVOLUTIONARY EQUIPMENT MANAGEMENT PLATFORM

MachineMax is a global company providing an innovative equipment management platform for off-highway heavy equipment users to track and maximise the productivity and profitability of every machine in their fleet... any make, any model, anywhere!

ABOUT US

MachineMax has been created by a dedicated team of engineers, data scientists, designers and construction professionals based in London, UK. Backed by Royal Dutch Shell, BCG Digital Ventures and B Capital Group.

MAKING WAVES

Winner of Smart Use of Machinery 2019

Start-up company cohort of Web Summit 2019

Shortlisted Future networks lab innovation showcase

Established global industry forum to enable heavy equipment data exchange

Funded by Department of International Trade to represent UK in Dubai

Attending Innovation zone at UK Construction Week 2019

Guest Speaker at London 2019

Case studies on MachineMax by industry giants

TAKE CONTROL OF YOUR FLEET

Get a live report of any machine, owned or rented. See if it's on, off or idling. Finish projects on time with minimal overrun costs.

	Wheeled Loader 103	46.1h	40.2	5.9	3 minutes ago
	Excavator 026	31.4h	24.7	6.7	1 minute ago
	Screener 004	23.3h	23.2	0.1	4 minutes ago
	Crusher 043	23.0h	14.1	8.9	6 minutes ago

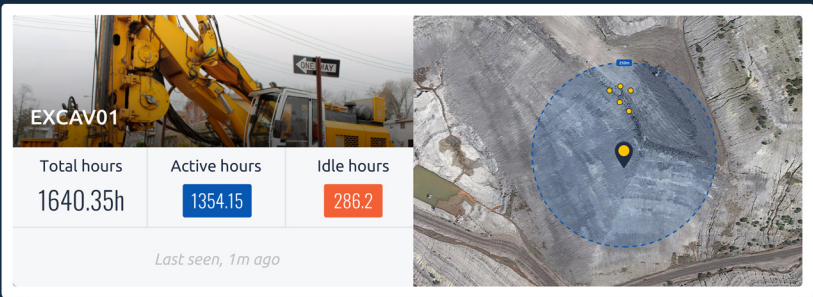

CUT FUEL AND RENTAL COSTS

With a clear view of machine activity, you can reduce idling and stop wasting fuel. Make the most of your existing fleet, avoid buying or renting new machines.

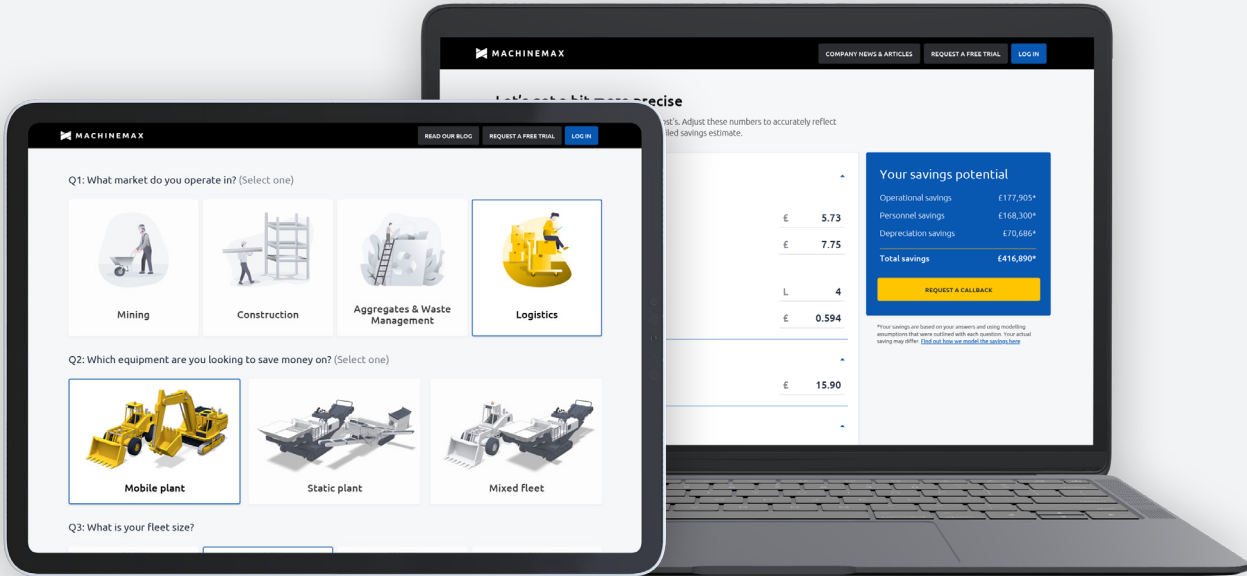

NEVER WONDER WHERE YOUR MACHINE IS

Geolocate your machines from wherever you are. Using the MachineMax sensor we can tell you where your machine is at on site.

WE CAN SAVE YOU £1,000,000*

machinemax.com/savingscalculator

Want to increase efficiencies and reduce idling? Looking for ways to save money on your machine rental costs?

We know that the Idling of machines wastes approx. £38,000 per machine, per year and equipment users lack visibility of how efficiently their machines are operating and where they are located.

We believe that it is important to know how much money you could save on a annual basis by using the MachineMax equipment

management platform. That's why we've designed our new savings calculator.

It only takes 2 mins to complete... So what are you waiting for? Plus, there's also an advanced savings calculator option to give you more accurate results based on your actual site costs.

machinemax.com/savingscalculator

*£1M a year saving is based on an average of 27 heavy equipment machines idling for 1,000 hours PA (recognised industry standard) where idling costs are estimated at £38k each.
